Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10 drawn to a method for inhibiting tumor growth comprising administering a multivalent NKG2D-binding agent, wherein the agent is an antibody, classified in class 530, subclass 387.1. Claims 1-9 will be examined with Group I to the extent that the method reads on administering an antibody.
 - II. Claims 1-9 and 11-17, drawn to a method for inhibiting tumor growth comprising administering an agent, wherein the agent is a natural NKG2D ligand, classified in class 514, subclass 2. Claims 1-9 will be examined with Group II to the extent that the method reads on administering a ligand.
 - III. Claim 18, drawn to a method for inhibiting tumor growth and determined to be predisposed to harboring a tumor comprising administering a multivalent NKG2D, classified in class 424, subclass 9.1.
2. The inventions are distinct, each from the other because of the following reasons:

The methods of Groups I-III differ in the method objectives, method steps and parameters and in the reagents used.

Inventions I-III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In

the instant case the different inventions utilize different products. Furthermore, while the preambles of Groups I and II are identical they each require materially different products for implementing the methods. Groups I and II read on methods of treatment while Group III reads on diagnosis.

3. A telephone call was made to Richard Aron Osman on September 24, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alana M. Harris, Ph.D. whose telephone number is (703) 306-5880. The examiner can normally be reached on 6:30 am to 4:00 pm, with alternate Fridays off.
